

Fishery Reports

Hawkhurst Fish Farm Hawkhurst, Kent

Biggest of 17 recently - Quarry Lake - John Kittle

Firstly we would like to wish a happy new year to all our customers and we hope you had a fantastic Christmas! We look forward to seeing you again this year. As you know, our lakes are closed until 2nd February but we are taking bookings for our open season, so why not book in now to avoid disappointment.

Reports of the work completed over our closed period will be detailed in the next edition.

QUARRY: Reports from November/December: Now a regular visitor to our Quarry Lake, **Ronald Davis** caught 26 fish on his most recent session, including a lovely looking 12lb Mirror using the trusty maggot. He is still trying to beat his previous **PB** from Quarry Lake of 17lb 8oz. On another session, Ronald caught 9 carp including a lovely 11lb 8oz common, again all on maggot. **John Kittle** organised a day out for an armed forces group. He sent in a photo of a scale perfect common, the biggest of 17. Remember you can receive armed forces discount on fishing and in the café with a valid 'British Forces Card'.

SPECIMEN LAKE: As our only lake which is open 365 days a year, this lake is notorious for producing some great catches even throughout the winter months. **Ryan Dowdeswell** landed two beautiful looking fish, a 27lb 4oz Mirror and a 30lb Mirror on an overnighter between work. We haven't had many anglers fishing and hence not many catch reports but we thoroughly recommend that members make the most of their membership and brave the weather!

Waterside Café will re-open on 10th January at 9am; we'll hope to see you then! Remember to follow our Instagram page and like us on facebook to keep up to date on all our latest news.

12lb Mirror - Quarry Lake - Ronald Davis

11lb 8oz Common - Quarry Lake - Ronald Davis

Framfield Park Fishery Framfield, East Sussex

SPRING LAKE Colder weather has resulted in reduced weights, however still plenty of good quality carp to 17lb showing with catches over 100lb possible. Most pegs producing with pegs in the 60's the most productive. Best baits are maggot and pellet although feed should be kept to a minimum. Some good quality Perch are also showing which falling to worm and maggot. Another area to target is the islands when fishing on the bomb with bread or maggot.

BROOKHOUSE LAKE

Best areas are the far side especially pegs near the gap in the island. Best baits are again maggot and pellet pole fished for Carp up to 15lb. Close to the islands is a good spot to target when fishing the bomb on bread or maggot.

BURYWOOD LAKE

Most pegs producing with pegs on the far side the most productive. Best baits are fish flavoured boilies when fished popped up. Some nice commons and mirrors up to 20lb showing with grass carp to 18lb.
