## Wylands International AC Battle, East Sussex

Dave Honeysett

The mild weather in November has encouraged more anglers to site and kept the fish coming out. All the lakes are carrying their full autumn colours and the carp have been feeding in earnest.

**HOUSE LAKE** is still fishing well and just about every angler who has fished it has caught some nice carp with the best a 23lb common to a day ticket angler.

**NEW SPECI** has been fishing best at night although a few carp have been landed during the day time. Two anglers did a 5 day session on the lake and left happy after reporting several 20+ catches including two commons of 27lb and 29lb. Another group of friends fished throughout the night and landed 13 fish between them, 3 of them over 20lb.

**KELL** has produced carp to 29lb this month. Dean Coker deserves a special mention after landing his first Kell carp, after tweaking his tactics his hard work and perseverance finally paid off!

**OLD SPECI** produced a new 20lb in the shape of a plump 22lb common, caught by Wylands regular Barry. The lake is now producing plenty of double figure fish.

**MAISIES LAKE** is still active thanks to the mild weather we are still having. The water temperatures may have lowered a little but the cats are still active and feeding. The largest fish this month was landed by lady angler Marston which tipped the scales at 40lb. Dave Honeysett a new season ticket holder was pleased when he caught his first cat a fine specimen of over 20lb. The carp in this lake are also feeding well with some quality fish of 20lb+ being landed throughout the month.

**MIDDLE LAKE** is the perfect venue to hold winter silver matches 20+ swims available, for more information call 01424 893394 or 07774 383026.
