

# Fishery Reports

**Wylands International AC** Battle, East Sussex

**FIELD LAKE** - has fished very well most anglers use simple float methods and have not had to wait long for a bite.. The lake is very popular with the younger generation of angler with large amounts of fish being caught.

**HOUSE LAKE** - has been as popular as ever with some very nice specimens being landed including several twenty plus carp. As the weather has been so mild the margins and shallower water have fished very well.

**MIDDLE LAKE** - has fished its socks off with many personal bests being recorded this month. In the warm sun the fish have been bathing in the upper layers and the carp have responded very well to surface fishing.

**KELL** - is as tricky as ever this said many anglers have had cracking sections this month with a few anglers landing six or seven fish. Warty has shown his face a few times at over 30lb and also a common of 35lb has been banked.

**MAISIES** - has produced some stunning carp to mid twenty and some cracking large 50lb plus cats. Please remember to pre book on this lake as swims are limited. A big tip for this lake is not to fish near the reeds as this just results in lost fish.

**THE SPECI LAKES** - New Speci has been fantastic with some stunning carp up to 28 lb being landed, it has fished very well and has been very popular through this month. Large beds of bolilie's seem to be doing the trick on new and old spec at the moment.

**OLD SNAKE** - is open as usual and makes a fantastic place for a few bites. The lake is also available to book for club matches .

**ROSIES** - Bags of up to 9 crucian carp have been landed in a session on various methods including method feeder and float fished worm. The carp have been as hungry as ever with many being caught up to 19lb.

**SNIPE LAKE** - With the continuous hot weather over the last month, the carp in Snipe decided to have another go at spawning. So once again we shut the lake to leave them to it.
