

Wylands International AC Battle, East Sussex

A great month for fishing with spawning finished and some good catch reports making there way to us. I will have to start with kell lake. Good numbers of mid to upper twenties have been landed and the odd thirty gracing the bank. **Bob Clark** landed a stunning common and a 34lb mirror carp. **HOUSE LAKE** is producing well we have received lots of catch reports of over 20+ fish being caught in a day.

MAISIES LAKE holds catfish along with some great carp. **Dave Honysett** has had some fantastic cats up to 57lb. Baliff, **Graham Kent** landed numerous cats to 44.12 and four 20+ carp.

CANAL LAKE this great little water holds some fantastic coarse fish eg tench, bream, perch, rudd and roach etc. The Dartford boys on a short stay in our accommodation fished every lake on the complex landing lots of fantastic carp up to 34lb.

The fish in **NEW** and **OLD SPECI** are feeding well. With the right tactics on Old speci, multiple numbers of carp can be caught. The best this month is a fine 22.8 common landed by a day ticket angler. **NEW SPECI** is still producing a fair few 20+ carp with the best reported at a very respectful 28.2 common.

Accommodation packages are available from £110 to include all your fishing please contact reception for more details.
